Now you can bring body, mind and spirit back into balance. Learn how to manage your stress and reduce your pain. Stress is the body’s normal response to anything that disturbs its natural mental, physical, emotional, or spiritual balance. Experts now estimate that up to 80-90% of disease is caused or complicated by stress. I have done advanced work in Quantum Biofeedback and I am amazed at what we can learn about ourselves through this subconscious connection to our body.

Interesting Stats: According the US National Institutes of Health (NIH) eighty percent of all disease is caused by stress. They go on to say that to manage the disease, manage the stress.

I have done advanced work in Quantum Biofeedback and I am amazed at what we can learn about ourselves through this subconscious connection to our body.

What is Disease?Disease is the disruption of our energy flow due to a blockage or stressor. Many causes of dis-ease approach us beneath our conscious awareness (e.g., heredity factors, allergies, toxicities, deficiencies, pathogens, etc.).

This device is used as a Biofeedback and Stress Management system only.

In a short time on the Quantum Biofeedback I began to feel the flow of energy moving through my bodyspace…I was amazed and delighted and as I sat mesmerized by the deeply relaxing session… I was extremely impressed, surprised and very grateful for a divine connection. I feel so balanced and stress free. --Theresa

Biofeedback Breakthrough The Quantum Biofeedback/EPFX is the largest FDA software registered for Biofeedback. It is designed for stress detection and stress reduction. This bio-feedback device was registered with the FDA for the identification and release of stress in 1989.

The Quantum Biofeedback/EPFX is an ultrafast computer program with specific software, to analyze, relieve and correct the stresses in your body. A computer interface gives you fast insight into exactly what is causing you distress.

I found the Quantum Biofeedback machine to be truly amazing in its ability to identify issues on all levels; physical, emotional, mental and spiritual. Not only was it able to detect a tooth pain that I had that day but also the food poisoning I had 20 years ago. .. and I slept like a baby. --L.K.

The function of the Quantum Biofeedback/EPFX is similar to a virus-scan on a computer. It focuses on your energetic

body, which offers a more complete view of each facet of your health. Based on Quantum Physics, it runs a comprehensive test that measures the body’s frequencies. The system then contributes frequencies designed to resonate within the body, thus creating balance.

The human body is composed of a biochemical structure and an electromagnetic field. It performs best when these functions are balanced with one another and in complete harmony. Unfortunately, the daily stresses of life that confront each and every one of us takes its toll on the human body. Stress reduction is essential for wellness. This energy work is non-invasive.

It is important to remember that energetic medicine does not "cure" health problems. It addresses them specifically by making energetic corrections and rebalancing the system through stress management.

THE QUANTUM BIOFEEDBACK / EPFX, DEVELOPED OVER 20 YEARS OF RESEARCH IN THE FIELD OF BIO-RESPONSE MEDICINE, IS CUTTING EDGE TECHNOLOGY.

Quantum Biofeedback is a simple, effective form of stress management that addresses and reduces stresses and imbalances safely and naturally. I am not a doctor and I do not diagnose your stressors. The EPFX System works by integrating highly sophisticated, very sensitive computerized biofeedback instruments that help to reduce your stress allowing your body to come back into balance.The EPFX System responds to you vibrationally and communicates with your superconscious to teach your body to return to resonating at a healthy frequency. I can offer this service to you in person or remotely. The stress management system of Quantum Biofeedback works at a distance and finds you in the subspace energy field. I compare it to the space of our prayers. Feel free to follow the link for more information.

Katherine, thank you so much for the balancing work we did yesterday. I knew that my neurotransmitters were all out of balance. I was feeling so low and filled with apathy. The emotional work we did really seemed to clear up some issues for me. I feel much stronger and revitalized! --Patricia
